TEMPLATE FOR PROGRAMME SPECIFICATION

HIGHER EDUCATION PERFORMANCE REVIEW: PROGRAMME REVIEW

PROGRAMME SPECIFICATION

This Programme Specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. It is supported by a specification for each course that contributes to the programme.

1. Teaching Institution	<i>Technical Institute-ƙut</i>
2. University Department/Centre	Health community
3. Programme Title	Health community
4. Title of Final Award	Technical Diploma
5. Modes of Attendance offered	Morning and evening study
6. Accreditation	World Health Organization
7. Other external influences	Central appointment
8. Date of production/revision of this specification	2016/11/10
9. Aims of the Program	
1-Graduation of technical cadres working in the field of health and safety and health inspection and supervision of professional -2implementation of health care programs. .3Health Survey teams and health awareness campaigns 4-4-doctor's help in nursing and diagnostic and therapeutic procedures -5operation of medical devices used and take care of it 6-surveys of the transition teams disease and how to control it	

10. Learning Outcomes, Teaching, Learning and Assessment Methods

A. Knowledge and Understanding

A1-recognize the public health components

A 2-the importance of nutrition.

A 3-health of the environment, health and rural school and professional.

A 4-health information and standards of health and disease.

A 5-identification of infectious diseases and ways to prevent them.

B. Subject-specific skills

B 1- the importance of nutrition for pregnant mothers and children

B 2- reduction of environmental pollution.

Teaching and Learning Methods

.1Lectures

.2discussion and dialogue

.3The use of teaching aids

.4practical application

- 5Summer -Training

Assessment methods

- Theoretical and practical and oral tests

C. Thinking Skills

C1-implement assessment programs

C 2-use of teaching aids

C 3-use medical devices.

Teaching and Learning Methods

1-direct diction.

2-means illustrations

Assessment methods

1- Daily test (written or oral)

2-monthly tests

3-Student reports

4- final exams

D. General and Transferable Skills (other skills relevant to employability and personal development)

D1- Mental abilities of the student development

D2-skills capacity development

Teaching and Learning Methods

1- Diversifying the ways and give the student an opportunity to choose

2. Urge the student to conduct research and reports

Assessment Methods

.1Follow-up reports

2. The final tests

11. Programme Structure

Level/Year	Course or Module Title	Credit rating
first	Community health	

12. Awards and Credits

Technical Diploma

13. Personal Development Planning

A 1- know the components of the environment.

A 2- ways of transmission.

A 3- ways of giving and storage of vaccines

14. Admission criteria .

Preparatory School branch of scientific study
The average of at least 85%

15. Key sources of information about the programme

- 1(Maternity and child care (D.hina Bayati
2. Simplified guide preventive measures and control of Communicable Diseases
